

Startup Licence Agreement for Saidzoda Lab Models

Free while you build. One payment, 70% off, for a licence for life once you earn money or raise investment.

How to use this form: fill in Part 1, write the models you need in Part 2, sign Part 4 and send a scanned copy or photo to tohir@saidzoda.com. We fill in the Annex with the price of each model and send it to you. The agreement starts when we sign it and send it back to you.

Part 3. What we agree

- 1. Free use.** We give you the right to use the models listed in Part 2 for free, for your own project described in Part 1. This right is personal: you cannot pass it to anyone else.
- 2. When the free period ends.** The free period ends on the date of your "first money", which is whichever comes first: (a) the first payment you receive from any customer for a product or service that uses our models, or (b) the first investment of any amount you or your company receive. You must tell us in writing within 30 days of your first money.
- 3. One payment, licence for life.** Within 60 days of your first money you pay us once the startup price of the models you use, from the Annex. The startup price is 70% off our full price. After this one payment you may use those models in your project for as long as you want, with no yearly fees. The licence covers the model versions we gave you; newer versions we release later are not included.
- 4. If you do not tell us.** If you get your first money and do not tell us within 30 days, the discount is lost and you pay the full price from the Annex, once.
- 5. Large clients.** If you build a product for a large company, bank, telecom operator or government body, this startup licence does not cover that work. You must tell us within 30 days and buy a normal licence for it.
- 6. Keep the files private.** The model files, test links and any information we give you are confidential. Do not share, publish, upload, sell or give them to anyone, and do not try to rebuild or copy the models. This duty continues for 3 years after the agreement ends.
- 7. Say where it comes from.** Write "Built with Saidzoda Lab models" in your product or on its website.
- 8. No harmful use.** No spying on people, no fake voices or fake videos of real people without their written consent, no fraud, and nothing against the law.
- 9. Ownership.** The models stay ours, also after you pay. Your payment buys the right to use them, not the models. Your own data and your own product stay yours.
- 10. No guarantee.** The models are given "as is". We are not responsible for losses caused by using them.
- 11. Ending the agreement.** Before you pay, either side can end this agreement with 30 days written notice. After you pay, we can end your licence only if you break clause 6 or 8, and then we can end it at once. You can stop using the models at any time, but a payment already made is not returned. When the agreement ends, you stop using the models and delete all copies within 14 days. Any money already owed must still be paid.
- 12. Disputes.** We will first try to solve any problem by talking. If that fails, the laws of the Republic of Tajikistan apply and the courts of Dushanbe decide.
- 13. Notices.** Email to the addresses in this agreement counts as written notice. Signed scans and photos count as originals.
